

- o Michael told Bill and Nancy Hamilton about a 1980 trip to Iran with Earl Brian. Would you ask Michael to send:
- o A copy of pertinent pages from his passport reflecting the trip to Iran;
- o A copy of the photograph he has of himself and Brian in Iran;
- o A copy of the 1099's showing that he and Brian were contract employees of Wackenhut Research during the period in question in 1980.
- o Could you also ask Michael
  - o The month and date of their trip to Iran in 1980;
  - o The method of travel;
  - o To whom was the \$40 + million paid?
  - o What bank, city and country was the final destination for the \$40 + million that Michael transferred?
  - o If Brian was to be rewarded with a PROMIS-related contract at Justice for his services in Iran, what kind of reward was Michael to receive? Did Michael actually receive a reward?
  - o Was the \$40 + million laundered through NASA's University cut outs? If so, who made those arrangements?
  - o What roles, if any, did William Casey, George Pender, Edwin Meese, or Ronald Reagan play in regard to the trip by Michael and Brian to Iran?
  - o Was Transaction Technologies used as the

electronic funds transfer network? Who made those arrangements?

o What were the roles of Senator Abourezk, Glenn Feldman and John Van Dewerker?

o Did the First Intercontinental Development Corporation have any role in this 1980 trip?

o Where did Brian and Michael stay in Iran and how long were they there?

o When Michael integrated a report writer software product with PROMIS for operation on a VAX computer manufactured by Digital Equipment Corporation, did he do the work under contract or subcontract with Wackenhut? Was it work being done for a federal government, foreign government or state and local government customer? If so, which government agency and what year?

o Does Michael have a copy of the Wackenhut annual report that makes reference to "tracking software for law enforcement Administration"? Was Wackenhut selling that software? If so, how and to whom and when? Was it the VAX/VMS version or some other version of PROMIS such as an IBM mainframe version or the version that runs on PRIME Minicomputers under the PRIMOS operating system?

o When will Michael come to Washington to meet with Senator Abourezk and others?

o Will Michael bring with him a copy of the PROMIS software?

o Michael said that Richard Brenneke did a deal with Earl Brian and Floating Point Systems of Portland, Oregon, involving file servers for a government agency. When? What government agency? What software?

Bill —

I need an adequate background on  
the software methodology — The tracking  
capacity — 10 years ago that Inslaw  
developed.

If only to read and understand, it will  
allow me to have some comprehension of  
The technical leadership that you made  
evident.
